**Student Remarks**

it was excellent!!

very interesting subject, but a bit lot mathematically oriented, as sometimes it is just mathematics and not about communication. otherwise, very good subject to study, concepts delivered exceptionally well.

Quiz 1 paper was too long for the given time. Marks were deducted irrationally.

KJ sirs teaching technique is really good. I really enjoyed the classes and hope to take some other courses taught by him in upcoming semesters.

good

Overallly it gives much basics about signalling systems

Awesome course and Prof!!!

Very nice course .The prof was too good .He gave all the information.

exceptional teaching and communication

Projector can be used more for this subject

Really enjoyed the course , the prof is amazing , especially the examples he presents , explaining tougher concepts with ease .

Too much of theory than practical implementation.
